联盟简介 / About the Alliance

联盟全称

安保与风险管理企业国际联盟（澳门）

成立背景

过去十年来，私营安保行业在全球安全治理以及国际贸易与发展中发挥了重要作用。在国际组织及相关论坛的监督下，国际社会通过《蒙特勒文件》《私营安保服务提供商国际行为守则》等国际公认公约、行为守则与服务标准，为私营安保服务机构提供指导与监督。由此，该领域国际规则与标准逐步形成。

以《国际行为守则》为基础成立的私营安保服务提供商国际行为守则协会（ICoCA），是当前全球私营安保行业最核心、最具影响力的国际组织。该协会为多元利益相关方平台，成员包括各国政府、200 余家私营安保企业、安全领域科研与学术机构及相关民间社会组织。

近年来，ICoCA 成员、董事会及秘书处启动改革，强化入会标准，并积极与全球各国政府及非政府组织沟通交流。上述举措旨在进一步提升 ICoCA 在国际私营安保行业治理中的影响力，统一全球私营安保企业标准。ICoCA 亦开始推行分级会员制度，并邀请私营安保、安全科技及风险管理领域内各类企业（包括同业竞争机构）加入。

在此背景下，华信中安安保集团董事长殷卫红先生提议成立由私营安保、风险管理、技术服务机构及其客户共同参与的多边合作商业与解决方案联盟。该倡议得到 ICoCA 支持，旨在推动此前互为竞争关系的企业实现更高层次的商业化共赢协同。

联盟主要以《国际行为守则》标准为基石，以 ICoCA 实践推广中的良好做法为指导。2021 年，安保与风险管理企业国际联盟（澳门）正式成立。

联盟遵循多边合作、商业共赢原则，致力于打造全球性私营安保合作平台。依托澳门国际化优势，联盟以非政府组织形式在澳门合法注册，汇聚全球优秀私营安保与风险管理企业，促进国际同业交流，提升私营安保企业全球知名度与影响力，并依托各成员独特能力与业务网络，更好服务共同客户。

此外，依托澳门国际自由港开放城市的历史地位，联盟将永久总部设于澳门。除在澳门举办外，还将在成员选定的国际城市定期举办主题国际论坛，议题涵盖行业发展、法律法规、商业机遇等诸多领域。

联盟旨在推动国际多边合作，构建覆盖多国的网络化私营安保服务体系，搭建多领域资源共享与协作平台：包括安全信息共享、风险评估、综合安保解决方案联合投标、设备与资产共享、联合危机管理与应急处置、安全技术交流、保险与法律咨询、人力资源合作、行业经验与最佳实践共享等；同时为客户、监管机构及观察员提供更充分的沟通、本地化服务与透明度。

联盟简介 About the Alliance

使命

本联盟为非营利组织，遵循《私营安保服务提供商国际行为守则》（ICoC）宗旨与原则。联盟旨在联合私营安保服务提供商国际行为守则协会（ICoCA）现有及意向成员及其他相关利益方，推动并强化私营安保行业在遵守国际法及适用标准前提下的最佳实践。联盟致力于搭建多边商业合作平台，支持成员企业在全世界各类复杂环境中联合开发、联合推广一体化安全与风险管理解决方案。

目标

1. 整合资源，强化协作共享。

推动各国及地区安保领域国际合作与交流，促进经验共享与最佳实践传播；推动成员间资源整合与共享，包括经验技术交流、业务合作等，提升整体业务能力与竞争力。

2. 推动行业发展与创新。

通过引入新技术、推动行业标准制定与更新、探索新型商业模式、适应不断变化的安全需求，引领安保行业高质量发展与创新。

3. 信息与能力共享机制。

逐步建立安保领域信息共享机制，包括绑架、勒索、人质解救、人员撤离等突发事件处置资源共享机制。中长期目标是实现风险早期预警，通过成员企业网络化布局实现全球快速应急响应，并在成员业务覆盖区域实现突发事件高效处置。

4. 深化与 ICoCA 合作。

联盟已获得私营安保服务提供商国际行为守则协会（ICoCA）非资金类支持。联盟将深化与 ICoCA 合作，推动国际安保行业标准化、专业化及规则统一，重点支持成员及客户业务所在地区，尤其非洲、中东、拉美及亚洲地区。联盟将作为 ICoCA 框架下理念一致的外部商业共同体，促进企业间交流与协同发展

联盟简介 About the Alliance

'About the Alliance' / 联盟简介

FULL NAME

International Alliance of Security & Risk Management Companies (Macau)

BACKGROUND

Over the past decade, the private security industry has played a significant role in global security governance and the expansion of international trade and development. Under the supervision of international organizations and forums, the international community has provided guidance and oversight to private security service providers through internationally recognized conventions, codes of conduct, and service standards, including the Montreux Document and the International Code of Conduct for Private Security Service Providers. As a result, international rules and standards in the field have gradually emerged.

The International Code of Conduct Association for Private Security Service Providers (ICoCA), founded on the basis of the International Code of Conduct, is currently the primary and most influential international organization in the global private security industry. It is a multi-stakeholder association that includes governments of various countries, more than 200 private security companies, research and academic institutions in the security field, and relevant civil society organizations.

In recent years, ICoCA's members, board, and secretariat have initiated reforms to strengthen the association's admission criteria and have actively engaged in communication with governments and non-governmental organizations worldwide. These efforts aim to further expand ICoCA's influence in the governance of the international private security industry and to harmonize standards across global private security companies. ICoCA has also begun rolling out a tiered affiliate membership program and is extending invitations to companies, often competitors, across the private security as well as security technology and risk management sectors.

Against this backdrop, the proposal by Mr. Yin Weihong, Chairman of HXZA Security Group, to establish a multilateral cooperative business and solutions Alliance for providers of private security, risk management, and technology services, along with their clients, was supported by ICoCA to promote unlock a new level of Win-Win commercial synergies between companies that were until-now, competitors.

The Alliance is underpinned chiefly by the standards established in the International Code of Conduct and guided by the good practices advanced through ICoCA's operationalization. As a result, the International Alliance of Security and Risk Management Companies in Macau was founded in 2021.

Guided by the principles of multilateral cooperation and win-win business success, the Alliance's goal is to establish a global private security cooperation platform. Leveraging Macau's international characteristics, the Alliance is legally formed in Macau as an NGO, and brings together outstanding private security and risk management companies from around the world to facilitate exchanges among international peers, enhance the visibility and influence of private security companies globally, and utilize the unique capabilities and reach of each member to better serve common clients.

Furthermore, taking advantage of Macau's historic status as an international "free-port" open city, the Alliance has established its permanent headquarters there. It will regularly host international forums on topics related to the industry's development, legal regulations, business opportunities, and more both in Macau, as well as in international and global cities chosen by the members.

The Alliance aims to promote international multilateral cooperation, build a networked web of private security services covering multiple countries, and create a platform for resource sharing and collaboration in various fields—including security information, risk assessment, joint tenders for comprehensive security solutions, shared equipment or assets, joint and combined crisis management/response, security technology exchange, insurance and legal consultation, human resources, and the sharing of industry lessons learned and best practices, all while providing greater communication, localization, and transparency to clients, regulators, and observers.

联盟简介 About the Alliance

MISSION

The Alliance is a non-profit organization following the purpose and principles of the International Code of Conduct for Private Security Service Providers (ICoC). The Alliance aims to ally members or members-to-be of the International Code of Conduct for Private Security Service Providers Association (ICoCA) along with other relevant stakeholders to promote and augment best practices across the private security industry in compliance with international law and applicable standards. The Alliance is committed to building a multilateral business cooperation platform facilitating member companies' joint development and promotion of combined security and risk management solutions in complex environments around the world.

OBJECTIVES

1. Integrating Resources to Strengthen Collaboration and Sharing

The Alliance facilitates international cooperation and exchanges in the security industry among different countries and regions, promoting the sharing of experiences and the dissemination of best practices. It is committed to resource integration and sharing among members, including the exchange of experiences and technologies, as well as business collaborations, to enhance overall business capabilities and competitiveness.

2. Promoting Industry Development and Innovation

The Alliance aims to drive the development and innovation of the security industry by introducing new technologies, advocating for the establishment and updating of industry standards, exploring new business models, and adapting to evolving security needs.

3. Information and Capability Sharing Mechanism

The Alliance is gradually establishing an information sharing mechanism within the security sector. This includes a resource-sharing mechanism for handling unforeseen incidents such as kidnappings, ransoms and extortions, hostage rescue, and evacuations. The medium- to long-term goal is to achieve early risk warning, prompt worldwide emergency response through a Networked-Web of member companies, and effective management of unforeseen incidents within the geographical areas covered by members' operational capabilities.

4. Deepening Collaboration with ICoCA

The Alliance has received non-financial support from the International Code of Conduct Association for Private Security Service Providers (ICoCA). It will deepen its collaboration with ICoCA to promote standardization, professionalism, and harmonization of regulations in the international security industry, with a particular focus on supporting members' and clients' regions of operations, especially in Africa, the Middle East, Latin America, and Asia. The Alliance will also serve as an external, but like-minded, business community for mutual exchange and collaborative growth among enterprises within the ICoCA framework.

安库风险信息技术公司

Beijing iCover Risk Information Technology Service Co.Ltd.

中国跨境投资风险预防与解决数字化创新服务平台于 2019 年在 ICOVER 全球安全投资研究信息数据库基础上创建（简称 ICC-ICOVER 安投平台），通过风险诊断、数据中台及项目协理等产业链协同专业服务，开展平台跨境投资贸易合作促进活动，打造央地合作、中外合作与第三方市场合作的企业共生系统。2012 年，中国对外承包工程商会境外项目安全管理平台成立并创建 ICOVER 全球安全投资研究信息数据库，标志着 ICOVER 平台的正式启动；2019 年 1 月，中国贸促会（北京安库）预警中心成立，标志着 ICOVER 平台的升级与 ICC-ICOVER 安投平台的正式启动。

中国贸促会（北京安库）预警中心是中国贸促会经贸摩擦预警机构，也是中国对外承包工程商会“境外项目安全管理平台”的执行单位和运营商，以健康安全环保（HSSE）、世行项目 ESA 等标准体系为标准，以跨境投资风险管理的数字化智能化转型升级为抓手，以各自由贸易试验区（港、岛）为载体，以国际产业链安全预警、全球合规为“双轮”驱动，联合中国相关各商协会，提供第三方数字化集群公共服务平台。

2020 年 11 月，依托中国贸促会连手全球 45 家商协会等机构共同发起设立的国际商事争端预防与解决组织（ICDPASO），中国贸促会（北京安库）预警中心联合长三角地区三省一市外经外贸商协会，共建区域一体化、服务 400 万家企业的“长三角中小企业风险预警中心”，参与 ICC-ICOVER 安投平台建设。

ICC-ICOVER 安投平台融合中国贸促会全球 230 多个预警机构与国际多边组织间的综合优势，建立跨境投资区域集群与国际供应链联盟，主要的投资促进产品与服务包括：

- 立足风险诊断，对跨境项目提供风险评估并提供风险应对一揽子解决方案，为大宗商品、绿色环保产业及新经济项目提供投资咨询、环境评估、合规体检与改善方案。
- 利用数据中台，在确保安全和合规前提下，提供国别产业趋势、投资政策法规、进出口关税及合作方资信查明等数字化应用支持，以及相应研究报告与项目商机动态。
- 围绕项目协理，提供调研、培训及投资促进活动策划等属地化服务，在第三方市场为项目做好本地化支持，为物流、资本、人才等战略合作做好响应准备，助力合作各方产业链资源共享与优势互补。

The Digital Innovation Service Platform for Prevention and Mitigation of Cross-Border Investment Risks in China was built on the basis of the ICOVER Global Safe Investment Research Information Database (hereinafter referred to as "ICC-ICOVER Safe Investment Platform") in 2019, which is designed to conduct platform-based cross-border investment and trade cooperation promotion activities by virtue of a range of industrial chain coordination professional services including risk diagnosis, data middle office and project coordination, with a view to building a corporate coexistence system featuring central-local cooperation, Sino-foreign cooperation and third party market cooperation. In 2012, China International Contractors Association (CHINCA) launched the overseas project safety management platform and established the ICOVER global safe investment research information database, marking the official commencement of the ICOVER platform; In January 2019, CCPIT (ICOVER) Warning Center was established, marking the upgrading of ICOVER platform and official launch of ICC-ICOVER Safe Investment Platform.

CCPIT (ICOVER) Warning Center serves as CCPIT's economic and trade frictions early warning unit as well as executor and operator of CHINCA overseas project safety management platform. Benchmarked against a set of standards systems including HSSE and World Bank project ESA and driven by "double wheels" including international industrial chain safety early warning and global compliance, it provides third-party digital cluster public service platform in cooperation with relevant business associations in China, with digital smart transformation and upgrading of cross-border investment risk management as starting point and free trade pilot zones (ports, islands) as carriers.

In November 2020, by reliance on the International Commercial Dispute Prevention and Settlement Organization (ICDPASO) jointly sponsored and established by CCPIT in cooperation with 45 institutions including business associations around the globe, CCPIT (ICOVER) Warning Center in cooperation with foreign economics and foreign trade associations in three provinces and one city in the Yangtze River Delta established the "Yangtze River Delta SME Risk Warning Center" featuring regional integration and service for 4 million enterprises, in order to participate in the construction of ICC-ICOVER Safe Investment Platform.

By integrating comprehensive advantages of more than 230 CCPIT early warning units and international multilateral organizations, ICC-ICOVER Safe Investment Platform established cross-border investment regional cluster and international supply chain alliance, with major investment promotion products and services including:

- On the basis of risk diagnosis, it provides risk evaluation and risk response package solutions for cross-border projects, and provides investment consulting, environmental evaluation, compliance examination and improvement solutions for commodities, green and environmentally friendly industries and new economic projects;
- By virtue of data middle office and under the premise of ensuring safety and compliance, it provides digital application support in terms of country-based industry trends, investment policies and regulations, import/export customs and partner qualification inquiry, as well as corresponding research reports and project opportunity updates;
- With a focus on project coordination, it provides location-based services such as survey, training and investment promotion activity planning, offers local support for projects in third-party market, enables response preparation for strategic partnerships involving logistics, capital and talents, with an aim to facilitate resource sharing and advantage supplementation of all partners along the industrial chain.

CENTURION
SECURITY S.A.

危地马拉百夫长安保公司

Centurion Security S.A.

百夫长安保公司是在中美洲危地马拉成立的专业英国保安公司。集成前英国业主留下的安保运营经验，这些经验不仅来自在中美洲和南美洲业务运营，也来自在非洲、亚洲、欧洲和中东等高风险环境中的安保业务经验。利用公司内部专业人员个人经验、知识和背景，创建这家能够提供高质量服务的安保公司，该公司能够在国际水平上运营，具有高价值观和坚实的道德基础，公司不仅关注其客户，也企业的员工。

百夫长安保公司还为洪都拉斯和萨尔瓦多的客户提供咨询服务。

百夫长安保公司是危地马拉目前唯一一家获得 ICoCA 认证的公司，鉴于私营部门内存在严重的有罪不罚现象和较差的安全规定标准，作为我们愿景的一部分，我们意识到需要 ICoCA 会员资格和所需的相关国际认证；

- ISO 18788-2015; 安保运营和管理体系认证
- ISO 9001-2015; 质量管理体系认证
- ANSI/ASIS PSC. 1-2015; 质量保障管理体系认证

Centurion Security S.A. is a professional British security company formed in Guatemala, Central America. With a legacy of security experience from the British owners, which was not only obtained here in Central and South America but whilst working in high-risk environments such as Africa, Asia, Europe and the Middle East. Using our personal experiences, knowledge and backgrounds we were able to create a company that is able to provide a high-quality service that operates at an international level with high values and a solid ethical base where our focus is not just on our clients but our employees as well.

Centurion also supports clients in Honduras and El Salvador with consultancy services.

Centurion is currently the only ICoCA certified company in Guatemala, given the high levels of impunity and poor standards of security provision within the private sector and as part of our vision, we realized the need for ICoCA membership and the required associated international certifications;

- ISO 18788-2015; Security Operations Management System.
- ISO 9001-2015; Quality Management System.
- ANSI/ASIS PSC. 1-2015; Quality Assurance Management System.

Frontier Risk Solutions (FRS) is a private security risk management
company based in Somalia. Founded in 2018, providing Responsible
Private Security Services in Southern Somalia, which is a member
the International Code of Conduct Association - ICoCA, International
Stability Operations Association - ISOA, European Bodyguard
and Security Alliance - EBSA, and United Nations Global Compact
and has been committed to the UN Global Compact corporate
responsibility initiative and its principles in the areas of human rights,
labor, environment and anti-corruption.

FRS provides a range of integrated security services, including risk
management, logistics, human resources, training program and
humanitarian access negotiation services. They also offer armed
and unarmed security enforcement, as well as armoured B6 and B7
vehicle rental services. Their services extend to a security sector
reform programme that places a high value on peacebuilding and
conflict resolution.

As a responsible security company, Frontier Risk Solutions strives to
offer its services despite Somalia's politically unstable environment
and resource scarcity. Operating in an environment with a lack of
strong and functioning governmental institutions where corruption is
prevalent and nepotism is common presents numerous challenges.
Additionally, the absence of advanced technologies and fair
competition in procurement and recruitment poses difficulties for
Frontier Risk Solutions as they compete with external multinational
companies. Consequently, the company faces a shortage of highly
skilled personnel. The high turnover of government institution
leadership further compounds these challenges.

To address these obstacles, the company took initiative and joined
ICoCA and other international associations with a clear mission in
mind - to adhere to and align with both national and international
standards., the company's commitment to following these
standards is driven by our dedication to providing the utmost care
and due diligence to our clients and stakeholders. "We understand
the significance of upholding these principles in an environment
as complex and challenging as Somalia, and this commitment has
guided our decision to join ICoCA", and others.

With this strong local expertise and International Code of Conduct
Association - ICoCA, International Stability Operations Association
- ISOA, European Bodyguard Security Alliance - EBSA, and
UN Global Compact memberships, FRS hopes to foster trust
among its clients and stakeholders, and expand its knowledge in
corporate security and risk management while remaining steadfast
in their commitment to promoting and protecting human rights and
international humanitarian law. "We believe that being a Member of
a highly trusted and recognised responsible security associations will
give us an edge in the highly competitive Somali private security
industry".

希腊海事风险服务公司 (MARISKS) Maritime Risk Services

MARISKS 最初是一家专注于海事风险管理的专业公司，现已发展成为一家活跃于国际市场的情报主导型安全、危机应对和咨询服务提供商。公司总部位于希腊雅典，业务遍及西非、红海、波斯湾和东地中海等主要高风险海域。

MARISKS 在几内亚湾（包括尼日利亚）设有运营基地，并与尼日利亚海军合作，在东道国框架下部署和管理其自有安全护航船 (SEV)。公司在尼日利亚、喀麦隆及周边地区开展复杂的近海和过境安全行动方面享有盛誉。

MARISKS 是国际行为准则协会 (ICoCA) 的认证会员，遵守安全治理、人权和问责制方面的国际标准。公司还为尼日利亚联邦政府提供技术咨询支持，包括与海洋和蓝色经济部合作，以及与尼日利亚海军在海事安全架构和实施方面开展业务合作。

该公司是几内亚湾绑架勒索 (K&R) 事件首选的实体危机应对服务提供商，能够在高风险环境下提供快速部署、现场支持和端到端危机管理。

MARISKS 为政府和商业客户提供高级情报和风险咨询服务。其情报产品为欧盟海军部队（包括欧盟海军部队行动）以及大型航运和能源公司提供支持，重点关注红海（胡塞武装活动）和波斯湾（美以伊紧张局势）不断变化的威胁环境。

在东地中海，MARISKS 为海上边境管制举措提供支持，提供咨询和行动方面的支持，以管理非法移民流动、执行制裁和应对区域安全挑战。

公司的业务范围包括：安全护航船 (SEV) 行动、海上情报和分析、航行风险评估、危机应对（绑架勒索事件的预防和应对）、政府安全部队整合、海上和能源行业安全支持、合规和审计咨询以及海上安全培训。

MARISKS 为众多国际客户提供服务，包括领先的船东、能源公司、保险公司和政府利益相关者，支持其在全球多个高风险地区运营。

MARISKS was established as a specialized maritime risk management company and has developed into an internationally active provider of intelligence-led security, crisis response, and advisory services. Headquartered in Athens, Greece, the company operates across major high-risk maritime theatres including West Africa, the Red Sea, the Persian Gulf, and the Eastern Mediterranean.

MARISKS maintains an operational footprint in the Gulf of Guinea, including Nigeria, where it deploys and manages its own Security Escort Vessels (SEVs) under host-nation frameworks in cooperation with the Nigerian Navy. The company has built a strong reputation for delivering complex offshore and transit security operations across Nigeria, Cameroon, and the wider region.

MARISKS is a certified member of the International Code of Conduct Association (ICoCA), adhering to international standards on security governance, human rights, and accountability. The company also provides technical advisory support to the Federal Government of Nigeria, including engagement with the Ministry of Marine and Blue Economy and operational cooperation with the Nigerian Navy on maritime security architecture and implementation.

The company is recognized as a preferred physical crisis response provider for Kidnap & Ransom (K&R) incidents in the Gulf of Guinea, delivering rapid deployment, on-the-ground support, and end-to-end crisis management in high-risk environments.

MARISKS delivers high-level intelligence and risk advisory services to both governmental and commercial clients. Its intelligence products support EU Naval Forces, including EUNAVFOR operations, as well as major shipping and energy companies, with a focus on the evolving threat environment in the Red Sea (Houthi activity) and the Persian Gulf (U.S. / Israel - Iran tensions).

In the Eastern Mediterranean, MARISKS supports maritime border control initiatives, providing advisory and operational input to manage irregular migration flows, sanctions enforcement, and regional security challenges.

The company's business scope includes: Security Escort Vessel (SEV) operations, maritime intelligence and analysis, voyage risk assessments, crisis response (K&R prevention and response), government security force integration, offshore and energy sector security support, compliance and audit advisory, and maritime security training.

MARISKS provides services to a broad portfolio of international clients, including leading shipowners, energy companies, insurers, and governmental stakeholders, supporting operations across multiple high-risk regions worldwide.

Salama Fikira 意为“安心”。安心集团自 2005 年开始运营，起源于东非，专注于非洲之角附近的高风险反海盗行动和海上安全活动。安心集团目前已发展成为一家国际企业，拥有在全球不稳定和高风险地区管理风险并提供安全方面的专业知识。安心集团重点关注世界上治理和安全薄弱地区的强有力治理与有效风险管理相结合的差距，并在全球快速增长的市场提供服务。安心集团的成功秘诀是应用世界一流的治理和标准，并结合当地文化、业务、安全环境和风险管理方面专业知识进行服务。安心集团拥有为壳牌、雪佛龙、道达尔、伍德赛德和 Fortescue 等一流公司提供有效解决方案的历史，其风险管理和安全服务由内部培训学院提供支持（该学院为客户提供实地培训）。安心集团提供的解决方案不是千篇一律的，而是为了超越客户的需求和期望而量身定制的。同时，安心集团是英国标准委员会的成员。

Salama Fikira (‘peace of mind’) has been in business since 2005, originating in East Africa with a focus on high-risk anti-piracy operations and maritime security activities off the Horn of Africa. The company has grown into an international business with expertise in managing risk and providing security in unstable and high threat regions across the world. The company addresses the gap of strong governance married to effective risk management in regions of the world where governance and security are weak. Those areas are often attractive to mineral and oil and gas explorers but also non-government bodies such as the UN and NGOs. The provision of our services occurs in some of the fastest growing markets in the world and the prospects beyond 2030 are strong. The company success formula is the application of first world governance and standards, combined with local expertise in culture, business, security landscape and risk management. We have a history of delivering effective solutions to first class companies such as Shell, Chevron, Total, Woodside, and Fortescue. Our risk management and security services are supported by an in-house training academy which delivers on the ground training for our clients. The company also provides a comprehensive analysis and alert service via its proprietary online application called BREATHE. None of the solutions offered by the company are ‘cookie cut’ but are tailored to exceed customer needs and expectations. We have done that exceptionally well over a seventeen-year period. Our bespoke services are supported by an active ISO program and we are members of the British Standards Council.

北京飞天巡洋科技有限公司

Beijing Feitian Xunyang Technology Co., Ltd.

北京飞天巡洋科技有限公司成立于 2023 年，是国内超声速飞行器总体设计研制核心企业、动力解决方案专业提供商。公司长期深耕航天军工领域，专注超声速技术研发与产业化，为航天军工领域提供一站式产品交付及全流程场景解决方案。主营产品包括液体冲压发动机、超声速巡航飞行器系统和亚声速巡航飞行器，拥有完全自主知识产权技术，构建了从设计、加工生产、总装总调、试验等全流程的研制体系。

核心产品涵盖 QY-01 液体冲压发动机、CK-01 超声速巡航飞行器，产品具备低成本、高性能、模块化核心优势，速度覆盖 2.2-3.8 马赫，全面适配传统军工及商业防务多场景应用需求，填补国内中高速飞行器及相关动力系统的技术与产品空白。核心产品已完成发动机 240s 长时间地面直连考核试验，试验结果均符合既定指标及飞行平台总体设计要求，成功构建“动力系统-飞行器”一体化解决方案，技术水平达国内领先。公司将持续深耕超声速核心技术，为国防建设与商业防务发展提供关键支撑。

Founded in 2023, Beijing Feitian Xunyang Technology Co., Ltd. is a core enterprise in the overall design and development of supersonic aircraft and a professional provider of power solutions in China. The company has long been deeply involved in the aerospace and military industry, focusing on the research and development and industrialization of supersonic technology, providing one-stop product delivery and full-process scenario solutions for the aerospace and military sector. Its main products include liquid ramjet engines, supersonic cruise aircraft systems, and subsonic cruise aircraft. It possesses completely independent intellectual property rights and has built a complete development system covering design, processing and production, final assembly and testing.

Core products include the QY-01 liquid ramjet engine and the CK-01 supersonic cruise aircraft. These products possess core advantages of low cost, high performance, and modularity, covering speeds from Mach 2.2 to 3.8, fully adapting to the application needs of traditional military and commercial defense in multiple scenarios, filling the technological and product gaps in domestic medium- and high-speed aircraft and related power systems. The core products have completed a 240-second long-duration ground direct-connection test of the engine, with test results meeting the established indicators and overall design requirements of the flight platform. This has successfully built an integrated “power system-aircraft” solution, achieving a leading technical level in China. The company will continue to delve into core supersonic technologies to provide key support for national defense construction and commercial defense development.

北京国电高科科技有限公司

Beijing Guodian Gaoke Technology Co., Ltd.

北京国电高科科技有限公司成立于 2015 年，是国内商业航天领军企业，专业从事低轨卫星星座系统设计、研制、运营及应用，拥有卫星整体研制、星座建设运营、地面终端开发三大核心能力。公司是国家专精特新重点“小巨人”企业、国家知识产权优势企业，荣获全国“工人先锋号”称号，并拥有低轨卫星频率许可、增值电信业务经营许可证等 20 余项核心资质。

公司自主建设运营我国首个低轨物联网星座——“天启星座”。2025 年 5 月，“天启一代”系统完成一期全球组网，目前在轨卫星数量已达 41 颗。该星座具有全球覆盖、小型化、低功耗、低成本等特点，可为全球用户提供“空天地海”一体化物联网数据通信服务，实现全球覆盖的通信能力。目前，天启星座已广泛应用于能源、林业、农业、应急、水利、电力、石油、海洋、生态环境等行业数字经济场景，以及汽车、对讲机、穿戴设备等消费级电子产品直连卫星领域。

Founded in 2015, Beijing Guodian Gaoke Technology Co., Ltd. is a leading commercial aerospace enterprise in China, specializing in the design, development, operation, and application of low-Earth orbit (LEO) satellite constellation systems. It possesses three core capabilities: overall satellite development, constellation construction and operation, and ground terminal development. The company is a national key “Little Giant” enterprise (a national specialized and innovative enterprise), a national intellectual property advantage enterprise, and has been awarded the national “Worker Pioneer” title. It also holds over 20 core qualifications, including LEO satellite frequency licenses and value-added telecommunications operation licenses.

The company independently constructs and operates my country's first LEO Internet of Things (IoT) constellation—the “Tianqi Constellation.” In May 2025, the “Tianqi Generation 1” system completed its first phase of global networking, currently boasting 41 satellites in orbit. This constellation features global coverage, miniaturization, low power consumption, and low cost, providing integrated “air, space, and sea” IoT data communication services to global users, achieving global communication coverage. Currently, the Tianqi Constellation is widely used in digital economy scenarios across industries such as energy, forestry, agriculture, emergency response, water conservancy, power, petroleum, marine, and ecological environment, as well as in direct satellite connections for consumer electronics products such as automobiles, walkie-talkies, and wearable devices.

北京京安蓝盾科技发展有限公司

Beijing Jing'an Landun Technology Development Co., Ltd.

北京京安蓝盾科技发展有限公司成立于 2007 年，总部位于中国北京朝阳区新华科技大厦，产研基地位于成都郫都电子信息产业功能区九川花园产业园。公司业务涵盖安检、搜排爆设备销售服务、提供低空防御及公共信息安全整体解决方案等，是集科研、生产、销售为一体的国家高新技术企业。公司专业从事公共安全领域电子设备的设计与制造，产品主要面向公安、武警、监狱、核电站、发电厂等国家重要政府部门。2011 年公司与清华大学电子工程系成立电子封控数字技术联合实验室，2016 年针对 5G 通信体制的抗干扰能力，同时对标美国国防部从 2006 年开启的“联合反无线电控制简易爆炸装置电子战”（CREW “公爵”）项目的技术体制，提出了数字干扰激励发生的新方法，解决了干扰技术中频点切换速度慢、瞬时覆盖带宽较窄等技术问题，同时通过自主开发的数学模型算法生成的专用 GUI 操控软件实现了多标准覆盖、干扰效能突出和可扩展的基于软件定义无线电架构频率干扰技术。其核心技术均拥有自主知识产权。

Beijing Jing'an Landun Technology Development Co., Ltd., established in 2007, is headquartered in Xinhua Technology Building, Chaoyang District, Beijing, with its R&D and production base located in Jiuchuan Garden Industrial Park, Pidu Electronic Information Industry Functional Zone, Chengdu. The company's business encompasses the sales and service of security inspection and bomb disposal equipment, providing comprehensive solutions for low-altitude defense and public information security. It is a national high-tech enterprise integrating scientific research, production, and sales. The company specializes in the design and manufacturing of electronic equipment for the public safety field, with products primarily serving important government departments such as public security, armed police, prisons, nuclear power plants, and power plants. In 2011, the company established a joint laboratory for digital electronic jamming technology with the Department of Electronic Engineering at Tsinghua University. In 2016, targeting the anti-jamming capabilities of 5G communication systems and benchmarking the technical system of the U.S. Department of Defense's "Joint Countering Radio-Controlled Improvised Explosive Devices Electronic Warfare" (CREW "Duke") project initiated in 2006, a new method for digital jamming excitation was proposed. It solved technical problems such as slow frequency switching speed and narrow instantaneous coverage bandwidth in jamming technology. Simultaneously, through a dedicated GUI control software generated by a self-developed mathematical model algorithm, a multi-standard coverage, high jamming effectiveness, and scalability-based frequency jamming technology based on a software-defined radio architecture was achieved. Its core technologies possess independent intellectual property rights.

猎鹰（北京）低空科技有限公司

Falcon (Beijing) Low-Altitude Technology Co., Ltd.

猎鹰（北京）低空科技有限公司成立于 2025 年 11 月 11 日，是一家专注于大型活动低空安全保障的专业服务商，核心业务聚焦要人随行、体育赛事、文化演出及城市庆典等大型活动场景。公司以专业安保队伍实现前端感知，以固定式、便携式、车载式全系列装备构建立体防御，以智能指挥平台驱动精准决策，形成“侦测—识别—跟踪—处置”全链路闭环能力，为客户提供从地面到低空的全方位安全保障。

公司的无人机反制技术大队于 2019 年 8 月在公安部无人机防控专班委托指导下成立，先后承担了习近平总书记在上海、江苏、海南、潮汕等地区考察活动，以及国庆 70 周年阅兵核心区、澳门回归祖国 20 周年庆祝大会、亚洲文明对话大会、北京 2022 年冬奥会及冬残奥会、北戴河暑期安保等国家级重大任务的低空安保工作。

公司已成功完成法国总统马克龙外事访问期间都江堰要人随行保障、全国春季农业生产工作会议保障、国内首个世界田联白金标半程马拉松（眉山仁寿半程马拉松）保障等一系列行业标杆任务。其中，都江堰要人随行保障作为马克龙访华期间的关键安保环节，充分验证了公司应对高规格外事活动的实战能力。

公司具备快速部署、全国调度、实战经验丰富三大核心优势，致力于以专业化安保队伍、智能化装备体系和标准化作业流程，持续为大型活动筑牢地面与低空双重安全防线。

Falcon (Beijing) Low-Altitude Technology Co., Ltd., established on November 11, 2025, is a professional service provider specializing in low-altitude security for big events. Its core business focuses on VIP escorts, sporting events, cultural performances, and city celebrations. The company utilizes a professional security team for frontline detection, a full range of fixed, portable, and vehicle-mounted equipment to build a three-dimensional defense system, and an intelligent command platform to drive precise decision-making, forming a closed-loop capability encompassing “detection-identification-tracking-response” to provide clients with comprehensive security from the ground to the low altitude.

The company's anti-UAV team was established in August 2019 under the guidance of the Ministry of Public Security's UAV prevention and control task force. It has undertaken low-altitude security work for major tasks, including President Xi Jinping's inspection tours in Shanghai, Jiangsu, Hainan, and Chaoshan regions, the 70th National Day military parade core area, the 20th anniversary celebration of Macao's return to the motherland, the Conference on Dialogue of Asian Civilizations, the Beijing 2022 Winter Olympics and Paralympics, and the Beidaihe summer security operations.

The company has successfully completed a series of industry-leading security tasks, including providing security for French President Macron's diplomatic visit to Dujiangyan, the National Spring Agricultural Production Conference, and the first World Athletics Platinum Label Half Marathon in China (Meishan Renshou Half Marathon). The security task for the Dujiangyan visit, a key component of Macron's trip to China, fully demonstrated the company's practical capabilities in handling high-level diplomatic events.

The company possesses three core advantages: rapid deployment, nationwide coordination, and extensive practical experience. It is committed to continuously building a solid dual security defense line—both on the ground and at low altitudes—for big events through a professional security team, intelligent equipment systems, and standardized operating procedures.

Founder of I.C.E., Brett Davey is an Insurance Underwriter and Manager with over 40 years' experience in that industry. He spent 30 years in the London market working for many large Insurance companies, then transitioned to the Asia Pac market working for Royal Sun Alliance in Singapore as Head of Underwriting for the region. Brett has experience of underwriting many classes of business in regions and territories all over the world, including China and Mongolia.

He set up his company I.C.E. in Singapore in late 2019 with a view to eventually running his own Managing General Agency. Whilst that was developing, he set about being a distributor for various types of risks including security related products. During the early covid years he helped connect the HZXA organization to the London market for their Kidnap and Ransom and security risk insurance needs. That great connection still exists today hence I.C.E. being part of the newly formed Alliance.

I.C.E. has the benefit to be in the Asia market whilst having fantastic connections back to the London market for those large and complex or difficult risks where cover and support is not so readily available locally.
